Karachi.

To,

The Director College of Engineering,

PAF-Karachi Institute of Economics and Technology

Main Campus, Korangi Creek

Subject: **Sponsorship for Final Year Project**

Dear Mr. Najeeb Jafri,

Technia3M is a national aerospace company specializing in design, development and manufacture of commercial unmanned systems, test systems for aerospace applications and turnkey solutions for commercial aerospace and drone applications. Along with these, Technia3M also finds its need to liaison with academic research and academic projects related to aerospace industries for both commercial and military applications.

For this purpose, the company has decided to fully sponsor final year project titled "**Design and Development of Guidance System for Target Drone**". The sponsorship will cover hardware, software and manufacturing cost. The Sponsorship does not include monthly development expenditure/salary for student design engineer. Student design engineers are as follows.

1. Hasnain Hussain

Sincerely,

Anas bin Ifikhar

Systems Engineer, Technia3M
